PROPOSED SCHOOL TEST.

Bishop Willis Shows How It Will Work Injustice and May Become Tyrannous.

EDITOR BULLETIN:—Permit me in a few words to call the attention of the public to the "School Act" published by you last evening, so that they may judge whether they are prepared for its becoming law.

If it does become law (1) it will kill mission schools among the

Chinese, and (2) be a standing menace to Christian boarding schools like St. Louis and Iolani.

First, very rightly and properly the Chinese desire their children to be educated in their own language as well as in English. To meet this laudable wish St. Peter's school, for instance, maintains two teachers, one for English, the other for Chinese. The English teacher is engaged for the morning session, 9-12, the Chinese for the afternoon. Now, if the bill was satisfied with three hour's instruction in English, there would be no ground of complaint, and the purpose of the bill as stated in the preamble would be attained, for a Chinese child will learn more in three hours than children of other nationalities do in five. But to insist on four hours is to make a provision of which I can discover no other object but that of killing Chinese mission schools.

The second point I call attention to is the uncertain quantity of the power proposed to be vested in the Board of Education. Any school may at any moment be declared not to be a school in the eye of the law, by the issuing of a new code of rules by the Board of Education. The first section is so worded that either the Legislature or the Board may at any time make any rules they please touching the qualifications of teachers. It would be within the meaning of the act if the Board were to make rules excluding from approval all instructors who belonged to the Roman Catholic or Anglican churches. I do not say this is the intention of the bill. I only call attention to the enormous powers it will vest in the Board of Education, to interfere with the denominational schools of the country.

Granted that there is no intention to introduce the odium theologicum, and that it is not introduced, it remains that after withdrawing all aid from denominational schools, it is now proposed by our paternal government to exercise an authority over such schools, never exercised when government aid was given.

There are several kinds of fits, however, some are hereditary, some are brought on by heat, over-exertion, etc., but the fit that is brought about by us is not affected by the heat or cold, but is nevertheless hereditary with us.

New
Process
Stove

F
R
E
E.

No lottery, raffle or game of chance, but a straight business proposition. Every person who purchases one of our New Process Stoves between THURSDAY MORNING, JUNE 27, and ONE o'clock WEDNESDAY, AUGUST 7, will be entitled to one guess as to how many of these stoves will be sold up to that time, it being then just five months since the first stove was purchased. The person guessing correctly, or coming nearest to the correct number, will receive at once a present in cash of the full amount paid for his stove; in case of two or more persons guessing the winning number, each shall make a further guess on the sales of the following week, one person thus finally receiving the prize. As the stoves will be sold at regular price, no one risks anything, only if you guess nearest to the right number your stove costs you nothing. The prize being simply an ad. for New Process Stoves. Seal your guess in an envelope and place your name and address on the inside, and some private mark on the outside. The envelopes will be carefully kept and no one but the guessers will know what is inside each until the date of opening. A correct list of stoves sold will be hung up before the opening of envelopes, which will be done at our store in the Waring Block, Fort and Beretania, at 1 p.m. on August 7, in the presence of stove purchasers and the public.
